⁴ Waiver of the exemption from tax liability may be declared at the earliest for the beginning of the current tax period.

⁵ If the qualifying turnover of the taxable person does not reach the turnover threshold under Article 10 paragraph 2 letters a or c or 12 paragraph 3 and it is expected that the qualifying turnover will also not be reached in the following tax period, the taxable person must de-register. De-registration is not possible before the end of the tax period in which the qualifying turnover is not reached. ⁴ If a taxable person assigns claims from his business to third parties, the latter are liable on a subsidiary basis for the VAT included in the assignment if at the date of the assignment, the tax debt due to the FTA has not yet arisen and a certificate of shortfall is available.

^{4bis} Sellers who supply goods via a digital platform shall be liable on a subsidiary basis for the tax due on these supplies by the person deemed to be the supplier under Article 20a.

⁵ SR 313.0

⁷ The Federal Council shall determine which institutions are deemed to be education and research institutions under paragraph 2 number 30.

Art. 22 Option for the taxation of supplies exempt from the tax without credit

¹ The taxable person may, subject to paragraph 2, tax any supply exempt from the tax without credit (option), provided the tax is clearly detailed or a declaration is made on the tax return.

² The option is excluded for:

- a. supplies under Article 21 paragraph 2 numbers 18, 19 and 23;
- b. supplies under Article 21 paragraph 2 numbers 20 and 21 if the good is used or is intended to be used by the recipient exclusively for private residential purposes.

² Exempt from the tax are:

5. the transport or dispatch of goods in connection with the import of goods and all related supplies as far as the destination to which the goods are to be transported at the time the tax debt is incurred under Article 56; if no tax debt is incurred, the decisive time is governed by Article 69 CustA by analogy;
6. the transport or dispatch of goods and all related supplies in connection with the export of goods released for free circulation under customs law;
7. transport services and ancillary logistic activities, such as loading, unloading, trans-shipment, clearing or temporary warehousing:

9. the services of intermediaries acting expressly in the name of and for account of others, provided the brokered supply is either exempt from the tax under this article or is effected exclusively abroad; if the brokered supply is effected both on Swiss territory and abroad, that part of the brokerage that relates to supplies abroad or supplies that are exempt from the tax under this article is exempt from the tax;
10. the supply of services in their own name by travel agents and organisers of events, to the extent they make use of supplies of goods and services by third parties that are provided abroad; if these supplies by third parties are provided both on Swiss territory and abroad, only that part of the service of the travel agent or of the organiser that relates to supplies abroad is exempt from the tax;
11. the supply of goods under Article 17 paragraph 1^{bis} CustA to persons departing abroad or arriving from abroad by air;

[12. Turnover generated by gold and alloys of gold of the following form:](#)

³ A direct export under paragraph 2 number 1 is constituted if the good supplied is exported abroad or to an open customs warehouse or bonded warehouse without being used on Swiss territory. In serial transactions, the direct export extends to all suppliers involved. The good supplied may, prior to export, be processed or finished by agents of the non-taxable customer.

⁴ The Federal Council may, in order to safeguard competitive neutrality, exempt transport in cross-border air, rail or bus traffic from the tax.

⁵ The Federal Department of Finance (FDF) shall regulate the conditions by which domestic supplies of goods are exempt from the tax if being exported in tourist traffic and shall specify the evidence required. Proof may be provided in electronic form.

Chapter 3 Assessment Basis and Tax Rates

Art. 24 Assessment basis

¹ The tax is calculated on the consideration actually received. The consideration includes in particular the reimbursement of all costs, even if they are invoiced separately, and the public law charges payable by the taxable person. Paragraphs 2 and 6 remain reserved.

² For supplies to closely related persons (Art. 3 let. h), the consideration is deemed to be the amount that would be agreed between independent third parties.

¹³ [SR 632.10 Annex](#)

³ For barter transactions, the market value of each supply is deemed to be the consideration for the other supply.

⁴ For exchange repairs, the consideration covers only the wage for the work carried out.

⁵ For supplies made in lieu of payment, the consideration is deemed to be the amount which is thereby satisfied.

^{5bis} If a person is deemed to be a supplier in accordance with Article 20a, the consideration for the supply which he has facilitated shall be equal to the value which he has communicated to the purchaser of the goods.

⁶ Not included in the assessment basis are:

- a. ticket taxes, immovable property transfer taxes and the VAT itself payable on the supply;
- b. amounts that the taxable person receives from the person receiving the supply as reimbursement of outlays made in his name and for his account, provided they are detailed separately (transitory items);
- c. the portion of the consideration that, on sale of an immovable good, relates to the value of the land;
- d. the cantonal contributions to water, sewage or waste funds included in the price of disposal and supply services, to the extent that these contributions are used by these funds to pay contributions to disposal organisations or water-works.

Art. 24a Margin taxation

¹ If the person liable to tax has acquired collectors' items such as works of art, antiques and suchlike, in order to calculate the tax he may deduct the purchase price from selling price provided he has not deducted input tax from the purchase price (margin taxation). If the purchase price is higher than the selling price, the loss may be set off, in that the difference is deducted from taxable turnover.

² If such collectors' items are imported by the reseller, the import tax paid may be added to the purchase price.

³ A person is deemed to be a reseller if he acts for his own account or for the account of another on the basis of a purchase or sales commission agreement.

⁴ The Federal Council shall determine what is deemed to be a collectors' item.

⁵ If two or more collectors' items are purchased for an overall price, the tax may be calculated on the basis of the total difference between the overall selling price and the overall purchase price. The Federal Council shall regulate the requirements.

Art. 25 Tax rates

¹ The tax rate is ~~7.7~~8.1 per cent (standard rate), subject to paragraphs 2 and 3¹⁴.

² The reduced tax rate of ~~2.5~~2.6 per cent applies to:¹⁵

- a. the supply of the following goods:
 1. tap water,
 2. foodstuffs under the Foodstuffs Act of 20 June 2014¹⁶, with the exception of alcoholic beverages,
 3. cattle, poultry, fish,
 4. grains,
 5. seeds, planting roots and bulbs, living plants, cuttings, scions and cut flowers and branches, including those used in arrangements bouquets, wreaths, etc.; if invoiced separately, the supply of these goods is also subject to the reduced tax rate, even if it is made in combination with a supply taxable at the standard rate,
 6. animal feed, silage acids, scatterings for animals,
 7. fertilisers, pesticides, mulch and other vegetation used as covering material,
 8. medication,
 9. newspapers, magazines, books and other printed matter without advertising character of the kinds to be stipulated by the Federal Council,
 10. products for menstrual hygiene;
- abis. electronic newspapers, magazines and books without advertising character as defined by the Federal Council;
- b. the supply of services of radio and television companies, with the exception of services of a commercial nature;
- c. the supplies under Article 21 paragraph 2 numbers 14–16;
- d. agricultural supplies that consist of land cultivation directly related to initial production or cultivation of initial production products connected with the land.

³ For foodstuffs that form part of restaurant supplies, the standard rate applies. A restaurant supply is the serving of foodstuffs provided the taxable person prepares or serves the foodstuffs on the customer's premises or the taxable person maintains special installations for their consumption on the spot. If foodstuffs, with the exception of alcoholic beverages, are destined to be taken away or for delivery, the reduced tax rate applies provided suitable organisational measures are taken to differentiate these supplies from restaurant supplies; if this is not the case, the standard rate applies.

¹⁶ SR 817.0

Where foodstuffs, with the exception of alcoholic beverages, are offered in vending machines, the reduced tax rate applies.

⁴ The tax on accommodation services is ~~3.7~~^{3.8} per cent (special rate).¹⁷ The special rate applies until 31 December 2020 or, in the event that the time limit in Article 196 number 14 paragraph 1 of the Federal Constitution is extended, until 31 December 2027 at the latest. An accommodation service is the provision of accommodation, including the serving of breakfast, even if it is invoiced separately.

⁵ The Federal Council shall specify in greater detail the goods and services designated in paragraph 2; in doing so it shall observe the principle of competitive neutrality.

Chapter 4 Invoicing and VAT Details

Art. 26 Invoice

¹ The supplier must on request issue the recipient of the supply with an invoice that satisfies the requirements of paragraphs 2 and 3.

² The invoice must clearly identify the supplier, the recipient and the nature of the supply and as a rule contain the following elements:

- a. the name and the location of the supplier in the form in which he presents himself in business transactions, a note that he is registered as a taxable person and the number under which he is entered in the Register of Taxable Persons;
- b. the name and location of the recipient of the supply in the form in which he presents himself in business transactions;
- c. the date or period of the provision of the supply, in the event that it differs from the invoice date;
- d. the nature, object and extent of the supply;
- e. the consideration for the supply;
- f. the applicable tax rate and the tax amount payable on the consideration; if the consideration includes the tax, details of the applicable tax rate suffice.

³ On invoices issued by automatic tills (receipts), information on the recipient of the supply need not be included provided the consideration disclosed on the receipt does not exceed an amount laid down by the Federal Council.

Art. 27 Incorrect or unauthorised VAT details

¹ Any person not entered in the Register of Taxable Persons or who uses the notification procedure according to Article 38 may not include VAT details on invoices.

² Any person who includes VAT details on an invoice when not entitled to do so, or who details too high a tax for a supply, shall owe the tax detailed unless:

¹⁷ [Amended by No I of the O of 9 Dec. 2022 on Increasing VAT Rates for the Temporary Additional Funding of OASI, in force since 1 Jan. 2024 \(AS 2022 863\).](#)

- a. the invoice is corrected in accordance with paragraph 4; or
- b. he shows probable cause that the Confederation has not suffered a loss of tax; tax is not lost if the recipient of the invoice has not made an input tax deduction or if the input tax claimed has been repaid to the Confederation.

³ The legal consequences of paragraph 2 also apply to credit notes, unless the recipient of the credit note contests in writing the tax detailed without authorisation or the excessive tax amount.

⁴ An invoice may be subsequently corrected within the period permitted by commercial law by a document requiring acknowledgement of receipt, which refers to and revokes the original invoice.

Chapter 5 Input Tax Deduction

Art. 28 Principle

¹ The taxable person may in the course of his business activity, subject to Articles 29 and 33, deduct the following input taxes:

- a. the domestic tax invoiced to him;
- b. the acquisition tax declared by him (Art. 45–49);
- c. the import tax paid or payable by him which has been assessed unconditionally or has been assessed conditionally and fallen due as well as the tax declared by him for the import of goods (Art. 52 and 63).

² If the taxable person has, in the course of a business activity entitling him to make an input tax deduction, procured agricultural, forestry or market garden products, cattle or milk from non-taxable farmers, foresters, gardeners, cattle dealers or milk collectors, he may deduct as input tax ~~2.5~~2.6 per cent of the amount invoiced.¹⁸

³ Deduction of the input tax under paragraph 1 is permissible if the taxable person proves that he has paid the input tax.

Art. 28a Deduction of notional input tax

¹ The taxable person may deduct notional input tax if:

- a. he acquires an individualisable moveable good in the course of a business activity entitling him to make an input tax deduction; and
- b. the VAT on acquisition of the good has not been openly passed on to him.

² The notional input tax is calculated on the basis of the amount paid by the taxable person. The amount paid is regarded as including the tax at the tax rate applicable at the time of acquisition.

¹⁸ [Amended by No I of the O of 9 Dec. 2022 on Increasing VAT Rates for the Temporary Additional Funding of OASI, in force since 1 Jan. 2024 \(AS 2022 863\).](#)

³ No notional input tax may be deducted in respect of goods subject to margin taxation under Article 24a.

Art. 29 Exclusion of the right to input tax deduction

¹ There is no right to make an input tax deduction on supplies and the import of goods which are used to make supplies that are exempt without credit from the tax and where the option for their taxation has not been exercised.

^{1bis} An input tax deduction for supplies made abroad is possible to the same extent as if they had been made on Swiss territory and taxation had been opted for under Article 22.

^{1ter} It is possible to deduct input tax for travel services retained by travel agents and the related services of the travel agents if the services are provided or used abroad.

² Notwithstanding paragraph 1, there is a right to make an input tax deduction in the course of a business activity entitling the taxable person to make an input tax deduction for the purchase, holding and sale of interests and for reorganisations as defined by Article 19 or 61 of the Federal Act of 14 December 1990¹⁹ on Direct Federal Taxation (DFTA).

³ Interests are participations in the capital of other businesses that are held with the intent of long-term investment and confer significant influence. Participations of at least 10 per cent in the capital are deemed to be an interest.

⁴ In order to ascertain the deductible input tax, holding companies may base their calculation on the business activity of the businesses held by them that gives rise to the right to make an input tax deduction.

Art. 30 Mixed use

¹ If the taxable person also uses goods, parts thereof or services outside his business activity, or uses the same within his business activity both for supplies entitling the taxable person to make an input tax deduction and for supplies that are excluded from input tax deduction, he must correct the input tax deduction in proportion to their use.

² If such a pre-supply is predominantly used in the course of the business activity involving supplies entitling the taxable person to make an input tax deduction, the input tax may be deducted in full and corrected at the end of the tax period (Art. 31).

Art. 31 Own use

¹ If the conditions for input tax deduction are subsequently not fulfilled (own use), the input tax deduction must be corrected at the point in time at which the conditions are no longer fulfilled. The input tax previously deducted, including the parts corrected as a subsequent input tax deduction, must be repaid.

² Own use occurs in particular where the taxable person withdraws goods or services permanently or temporarily from his business, provided on procurement or

¹⁹ SR 642.11

contribution of the whole or of its components he has made an input tax deduction or he has procured the goods or services under the notification procedure according to Article 38 which:

- a. he uses outside his business activity, in particular for private purposes;
- b. he uses for a business activity which does not entitle him to make the input tax deduction under Article 29 paragraph 1;
- c. he hands over without consideration, without there being a business reason; in the case of gifts of up to 500 francs per person and year and of advertising gifts and samples with the aim of realising turnovers taxable or exempt from the tax, a business reason will be presumed automatically;
- d. on the cessation of tax liability are still subject to his right of disposal.

³ If in the period between the receipt of the supply and the non-fulfilment of the conditions for the input tax deduction, the good or service was put to use, the input tax deduction must be corrected in the amount of the fair value of the good or the service. To determine the fair value, the input tax amount is reduced on a straight line basis for every year that has expired by a fifth for movable goods and for services, and by a twentieth for immovable goods. The accounting treatment is of no significance. The Federal Council may, in justified cases, stipulate departures from the depreciation rules.

⁴ If a good is used only temporarily outside the business activity or for a business activity not entitling the taxable person to make an input tax deduction, the input tax deduction must be corrected based on the amount of the tax that would be due on the rent that an independent third person would charge therefor.

Art. 32 Subsequent input tax deduction

¹ If the conditions for the input tax deduction arise later (subsequent input tax deduction), the input tax deduction may be made in the reporting period in which the conditions arose. The input tax not deducted earlier, including the portion corrected for own use, may be deducted.

² If the good or the service was put into use in the time between receipt or import of the supply and the occurrence of the conditions for the input tax deduction, the deductible input tax is limited to the fair value of the good or the service. To determine the fair value, the input tax amount is reduced on a straight line basis for every year that has expired by a fifth for movable goods and for services, and by a twentieth for immovable goods. The accounting treatment is of no significance. The Federal Council may, in justified cases, stipulate departures from the depreciation rules.

³ If a good is used only temporarily outside the business activity or for a business activity not entitling the input tax deduction, the input tax deduction must be corrected based on the amount of the tax that would be due on the rent that an independent third person would charge therefor.

Art. 33 Reduction of the input tax deduction

¹ Flows of funds that are not deemed to be consideration (Art. 18 para. 2), do not result in a reduction of the input tax deduction, subject to paragraph 2.

² The taxable person must reduce his input tax deduction proportionately if he receives money under Article 18 paragraph 2 letters a–c.

Chapter 6**Calculation, Constitution and Prescription of the Tax Claim****Section 1** Time of Assessment**Art. 34** Tax period

¹ The tax is levied by tax period.

² The tax period is the calendar year.

³ The FTA shall permit the taxable person on request to use the business year as the tax period.²⁰

Art. 35 Reporting period

~~¹ Within the tax period, the tax is reported:~~

~~a. as a rule quarterly;~~

~~b. for reporting using net tax rates (Art. 37 paras. 1 and 2): every six months;~~

~~c. if there are regular input tax surpluses: at the request of the taxable person, monthly.~~

¹ Within the tax period, the tax shall be reported on a quarterly basis. For reporting using net tax rates (Art. 37 paras. 1 and 2), the tax shall be reported half-yearly.

^{1bis} At the request of the taxable person, the tax shall be reported:

a. in the case of a regular input tax surplus: monthly;

b. in the case of a turnover not exceeding 5,005,000 francs from taxable supplies each year: annually.

² On application, the FTA shall permit, in justifiable cases, other reporting periods and shall stipulate the conditions therefor.

Art. 35a Annual reporting

¹ The FTA may refuse or revoke authorisation for annual reporting in the case of taxable persons who fail to comply or only partially comply with their reporting and payment obligations.

² Annual reporting must be used for at least one full tax period.

³ Any person who changes from annual to monthly, quarterly or half-yearly reporting may change back to annual reporting after three tax periods at the earliest.

²⁰ Not yet in effect.

[4 Changes must take effect at the beginning of a tax period.](#)

Section 2 Amount of the Tax Claim and Notification Procedure

Art. 36 Effective reporting method

¹ In principle, the effective reporting method must be used.

² When applying the effective reporting method, the tax claim is calculated as the difference between the domestic tax payable, the acquisition tax (Art. 45) and import tax declared in the transfer procedure (Art. 63) and the input tax credit for the corresponding reporting period.

Art. 37 Reporting using the net tax rate and the flat tax rate methods

¹ If a taxable person does not generate more than ~~5,005,000~~5,024,000 francs turnover from taxable supplies annually and in the same period does not have to pay more than ~~103,000~~108,000 francs in tax, calculated at the net tax rate that applies to him, he may report under the net tax rate method.²¹

² When using the net tax rate method, the tax claim is determined by multiplying the sum of the taxable considerations, including tax, generated in the reporting period by the net tax rate approved by the FTA.

³ The net tax rates take into account the input tax amounts usual in the relevant branch of the industry. They are fixed by the FTA after consultation with the industry association concerned.

⁴ Authorisation to report under the net tax rate method must be requested from the FTA and the method must be used for at least one tax period. If the taxable person elects for the effective reporting method, he may not change to the net tax rate method for at least three years. Changes are possible for the beginning of a tax period.

⁵ Public authorities and related institutions, in particular private hospitals and schools or licensed transport undertakings and associations and foundations may report using the flat tax rate method. The Federal Council shall regulate the details.

Art. 38 Notification procedure

¹ If the tax calculated at the statutory rate on the sales price exceeds 10,000 francs or if the sale is made to a closely related person, the taxable person must fulfil his reporting and tax payment obligation by notification in the following cases:

- a. reorganisations in accordance with Articles 19 or 61 DFTA;

²¹ [Amended by No I of the O of 9 Dec. 2022 on Increasing VAT Rates for the Temporary Additional Funding of OASI, in force since 1 Jan. 2024 \(AS 2022 863\).](#)

- b. other transfers of all or part of assets to another taxable person in the context of an incorporation, liquidation, reorganisation, sale of business or a legal transaction regulated in the Mergers Act of 3 October 2003²².

² The Federal Council may determine other cases in which the notification procedure must be, or may be, used.

³ The notifications must be made in the course of ordinary reporting.

⁴ By using the notification procedure, the acquirer accepts the seller's assessment basis and the level of use entitling to an input tax deduction in respect of the assets transferred.

⁵ If in the cases mentioned in paragraph 1 the notification procedure was not applied but security is provided for the tax claim, the notification procedure may no longer be ordered.

Section 3 Constitution, Modification and Prescription of the Tax Claim

Art. 39 Form of reporting

¹ The tax shall be reported based on the agreed consideration.

² The FTA shall allow the taxable person on application to report on the basis of the consideration collected.

³ The form of reporting chosen must be retained for at least one tax period.

⁴ The FTA may require the taxable person to report on the basis of the consideration collected if:

- a. he receives to a significant extent considerations before he performs the supply or issues an invoice; or
- b. there is reasonable suspicion that the taxable person is abusing the procedure of reporting based on agreed considerations to obtain an unlawful benefit for himself or a third party.

Art. 40 Constitution of the tax claim

¹ If reporting is on the basis of agreed considerations, the right to make an input tax deduction is constituted at the time of receipt of the invoice. The turnover tax debt is incurred:

- a. on invoicing;
- b. with the issue of a partial invoice or with the collection of the partial payment, if the supplies give rise to a series of partial invoices or partial payments;
- c. with the collection of the consideration on advance payments for supplies not exempt from the tax and for supplies without invoice.

² If reporting is based on collected considerations, the right to make an input tax deduction is constituted at the time of payment. The turnover tax liability is incurred on collection of the consideration.

³ The right to make an input tax deduction based on the acquisition tax is constituted at the time of reporting the acquisition tax (Art. [4748](#)).

⁴ The right to make an input tax deduction based on the import tax is constituted at the end of the reporting period in which the tax was established.

Art. 41 Subsequent modification of the turnover tax liability and of the input tax deduction

¹ If the recipient of the supply corrects paid or agreed considerations, the turnover tax liability must be adjusted at the time when the correction is booked or the corrected consideration is collected.

² If the consideration expended by the taxable person is corrected, the turnover tax liability must be adjusted at the time when the correction is booked or the corrected consideration is paid.

Art. 42 Prescription of the right to establish the tax

¹ The right to establish a tax claim prescribes five years from the end of the tax period in which the tax claim was established.

² This prescriptive period is interrupted by a written declaration requiring confirmation of receipt that is aimed at establishing or correcting the tax claim, a ruling, a decision on an objection, or a judgment. A corresponding interruption of the prescriptive period may also be achieved by the announcement of an audit under Article 78 paragraph 3 or the commencement of an unannounced audit.

³ If the prescriptive period is interrupted by the FTA or an appeal body, the prescriptive period begins to run again. It then runs for two years.

⁴ The prescriptive period shall be suspended for as long as proceedings under this Act relating to tax offences are being conducted in respect of the relevant tax period and the person liable for payment has been notified (Art. 104 para. 4).

⁵ Interruption and suspension are effective towards all persons liable for payment.

⁶ The right to establish the tax claim in any case prescribes 10 years from the end of the tax period in which the tax claim arose.

Art. 43 Validity of the tax claim

¹ The tax claim is made legally binding by:

- a. a ruling that has become legally binding, a decision on an objection that has become legally binding or a judgment that has become legally binding;
- b. the written recognition or payment without reservation of an assessment notice by the taxable person;
- c. the prescription of the right to establish the tax.

² Until they are legally binding, the returns submitted and paid may be corrected.

Art. 44 Assignment and pledge of the tax claim

¹ The taxable person may assign and pledge his tax claim in accordance with the provisions of private law.

² The rights of the FTA, namely to object and to take measures to secure the tax, are not affected by the assignment or pledge.

Title 3 Acquisition Tax

Art. 45 Liability for acquisition tax

¹ The following are subject to the acquisition tax:

- a. supplies of services by businesses based abroad that are not entered in the Register of Taxable Persons where the place of supply under Article 8 paragraph 1 is situated on Swiss territory, with the exception of telecommunication or electronic services supplied to non-taxable recipients;
- b. the import of data storage media without market value with the services and rights included therein (Art. 52 para. 2);
- c. supplies of immovable goods on Swiss territory that are not subject to import tax and which are made by businesses based abroad and which are not entered in the Register of Taxable Persons, with the exception of making such goods available for use or exploitation;
- d. the supply of electricity in cables, gas via the natural gas distribution network and district heating by businesses based abroad to persons liable to tax on Swiss territory;
- e. [the transfer of emission allowances, certificates and attestations for emission reductions, certificates of origin for electricity and similar rights, certificates and allowances by businesses with registered office, domicile or a permanent establishment abroad or on Swiss territory, which is not exempt from domestic tax without credit in accordance with Article 21 paragraph 2 number 19 letter e.](#)

² The recipient of supplies under paragraph 1 is liable to the tax, provided he:

- a. is liable to the tax under Article 10; or
- b. procures such supplies for more than 10,000 francs in the calendar year.

Art. 45a Supplies not subject to acquisition tax

Supplies that are exempt from domestic tax without credit under Article 21 or exempt from the domestic tax under Article 23 are not subject to the acquisition tax.

Art. 46 Tax assessment and tax rates

The provisions of Articles 24 and 25 apply to tax assessment and the tax rates.

Art. 47 Tax and reporting period

¹ For taxable persons under Article 45 paragraph 2 letter a, the same tax and reporting periods apply as for the domestic tax (Art. 34 and 35).

² The tax and reporting period for taxable persons under Article 45 paragraph 2 letter b is the calendar year.

Art. 48 Constitution and prescription of the right to establish the acquisition tax debt

¹ The acquisition tax debt is incurred:

- a. with the payment of the consideration for the supply;
- b. in the case of taxable persons under Article 45 paragraph 2 letter a who report on the basis of agreed considerations (Art. 40 para. 1) at the time of receipt of the invoice, and for supplies without invoicing on payment of the consideration.

² Prescription of the right to establish the tax and legally binding effect are governed by Articles 42 and 43.

Art. 49 Joint and several liability, tax succession and substitution

For joint and several liability, tax succession and substitution, the provisions of Articles 15–17 apply.

Title 4 **Import Tax****Art. 50** Applicable law

For the tax on the import of goods, the customs legislation applies, unless the following provisions provide otherwise.

Art. 51 Tax liability

¹ Any person who is a customs debtor under Article 70 paragraphs 2 and 3 CustA²³ is liable to the tax.

² Joint and several liability under Article 70 paragraph 3 CustA does not apply to persons who file customs declarations commercially (Art. 109 CustA) if the importer:

- a. is entitled to make an input tax deduction (Art. 28);

²³ SR 631.0

- b. has the import tax debt charged via the FOCBS's²⁴ centralised settlement procedure (CSP) account; and
- c. has commissioned the person who files customs declarations commercially to act as his direct agent.

³ The FOCBS may require the person who issues customs declarations commercially to provide evidence of his authority as an agent.

Art. 52 Taxable object

¹ The taxable object is:

- a. the import of goods, including the services and rights contained therein;

- b. on the consideration for supplies of goods under work and labour contracts or for work within the meaning of Article 3 letter d number 2 using goods released for free circulation (Art. 48 CustA²⁷) and carried out by a person not registered on Swiss territory as a taxable person;
- c. on the consideration for work carried out abroad on behalf of artists and sculptors on their own works of art (Art. 3 let. d no. 2), provided the works of art were brought onto Swiss territory by them or on their behalf;

²⁷ SR 631.0

- d. on the consideration for the use of goods that were imported for temporary admission under Articles 9 and 58 CustA, provided the amount of tax due on this consideration is substantial; if no or a reduced consideration is demanded for the temporary use, the consideration that would be charged by an independent third party applies;
- e. on the consideration for the work carried out abroad on goods (Art. 3 let. d no. 2) that were exported under Articles 9 and 58 CustA for temporary admission or under Articles 13 and 60 CustA for outward job processing under a work and labour contract and are returned to the consignor on Swiss territory;

² If the tax calculation is based on the consideration, the consideration paid or payable by the importer or by a third party in his stead under Article 24 applies, subject to Article 18 paragraph 2 letter h. If the consideration is altered subsequently, Article 41 applies by analogy.

³ The assessment basis must include, if not already included:

- a. the taxes, customs duties and other charges incurred outside Swiss territory and as a result of the import, with the exception of the Value Added Tax being levied;
- b. the costs of the transport or dispatch and all related supplies as far as the destination on Swiss territory to which the goods are to be transported at the time import tax debt under Article 56 is incurred; if this location is unknown, the destination is the place where the trans-shipment takes place on Swiss territory after import tax debt is incurred.

⁴ If doubt exists as to the correctness of the customs declaration or values are lacking, the FOCBS may estimate the tax assessment basis at its fair discretion.

⁵ Price or value information expressed in foreign currency adduced in determining the assessment basis must be converted into Swiss francs at the exchange rate (offer) prevailing on the stock exchange day immediately prior to the incurrence of the import tax debt under Article 56.

Art. 55²⁸ Tax rates

¹ The tax on the import of goods is ~~7.7~~8.1 per cent, subject to paragraph 2.

Art. 56 Incurrence, prescription and payment of the import tax debt

¹ The import tax debt is incurred at the same time as the customs debt (Art. 69 CustA²⁹).

² Taxable persons under Article 51 who settle the import tax debt via the CSP are allowed a period of 60 days after issue of the invoice to make payment; exceptions are imports made by tourists, which must be reported orally for customs assessment.

³ In relation to security, facilities may be granted if collection of the tax is not endangered as a result.

⁴ The import tax debt prescribes at the same time as the customs debt (Art. 75 CustA). The prescriptive period is suspended for as long as criminal proceedings in respect of tax offences under this Act are in process and the person liable for payment has been informed (Art. 104 para. 4).

⁵ If the import tax debt changes as a result of subsequent adjustment of the consideration, in particular as a result of revision of the contract or because of price adjustments between related businesses based on recognised guidelines, the tax that has been assessed too low must be notified to the FOCBS within 30 days of the adjustment. The notification and the adjustment of the tax assessment may be dispensed with if the additional tax payable could be deducted as input tax under Article 28.

Art. 57 Interest on late payment

¹ If the import tax debt is not paid on time, interest on the late payment is due.

² The liability for interest on late payment begins:

- a. where payment is made via the CSP: on expiry of the payment terms granted;

³ The liability for interest on late payment also continues during appeal proceedings and instalment payments.

Interest on late payment is not imposed if:

- a. the import tax debt has been secured by a cash deposit;

²⁹ SR 631.0

- c. goods conditionally assessed (Art. 49, 51 para. 2 letter b, 58 and 59 CustA) on conclusion of the customs procedure:
 - 1. are re-exported, or

- c^{bis}. in the case of goods conditionally assessed, the importer was registered on Swiss territory as a taxable person at the time of acceptance of the customs declaration;
- d. ...
- e. the goods must be declared periodically for the customs assessment procedure (Art. 42 para. 1 letter c CustA) or are subsequently assessed under a simplified customs assessment procedure (Art. 42 para. 2 CustA) and the importer was registered on Swiss territory as a taxable person at the time of the import.

Art. 59 Right to refund of the tax and prescription

¹ Where excess taxes have been imposed or taxes are not due, there is a right to a refund.

² Not refunded are excess taxes imposed, taxes not due and taxes no longer due as a result of a subsequent assessment of the goods under Articles 34 and 51 paragraph 3 CustA³¹ or because of their re-export under Articles 49 paragraph 4, 51 paragraph 3, 58 paragraph 3 and 59 paragraph 4 CustA if the importer is registered on Swiss territory as a taxable person and may deduct the tax payable or paid to the FOCBS as input tax under Article 28.

³ The right prescribes five years from the end of the calendar year in which it was constituted.

⁴ The prescriptive period is interrupted if the right is enforced against the FOCBS.

⁵ It is suspended for as long as appeal proceedings in respect of the enforcement of the right are pending.

⁶ The right to a refund of excess taxes imposed or taxes not due in any event prescribes 15 years from the end of the calendar year in which it was constituted.

Art. 60 Refund because of re-export

¹ The tax imposed on import shall be refunded on application if the conditions for an input tax deduction under Article 28 are not met and:

- a. the goods are re-exported unaltered without prior handover to a third party as part of a supply of goods on Swiss territory and without having been used earlier; or

³⁰ SR 631.0

³¹ SR 631.0

- b. the goods were used on Swiss territory, but are re-exported as a result of cancellation of the supply of goods; in this case the refund is reduced by the amount that represents the tax on the consideration for use of the goods or on the loss of value caused by use of the goods and on the non-refunded import customs duties and duties based on non-customs-based federal laws.

² The tax is refunded only if:

- a. the re-export takes place within five years of the end of the calendar year in which the tax was imposed; and
- b. the goods exported are proven to be identical to those imported earlier.

³ The refund may in a specific case be made dependent on proper declaration in the import state.

⁴ Applications for a refund must be submitted on declaration for the export procedure. Subsequent refund applications may be considered if they are submitted in writing to the FOCBS within 60 days of issue of the export document with which the goods were assessed under the export procedure (Art. 61 CustA³²).

Art. 61 Refund interest

¹ Refund interest shall be paid in respect of the period that elapses before the refund is paid:

- a. in the case of refunds of excess tax or tax not due under Article 59: from the 61st day after receipt of the written claim by the FOCBS;
- b. in respect of refunds of the tax as a result of re-export under Article 60: from the 61st day after receipt of the application by the FOCBS;
- c. in respect of procedures with conditional payment liability (Art. 49, 51, 58 and 59 CustA³³): from the 61st day after due conclusion of the procedure.

² The interest-free period of 60 days does not begin to run until:

- a. all documents necessary to establish the facts and evaluate the request have been received by the FOCBS;
- b. the objection to the assessment decision satisfies the requirements of Article 52 of the Federal Act of 20 December 1968³⁴ on Administrative Procedure (APA);
- c. the bases for calculating the tax on the consideration under Article 54 paragraph 1 letter d are known to the FOCBS.

³ Refund interest is not paid on a tax remission under Article 64.

Art. 62 Competence and procedure

¹ The import tax is levied by the FOCBS. It issues the necessary orders and rulings.

³² SR 631.0

³³ SR 631.0

³⁴ SR 172.021

² The executive bodies of the FOCBS are authorised to undertake all the investigations that are necessary to examine the facts significant to the assessment of the tax. Articles 68–70, 73–75 and 79 apply by analogy. The FOCBS may, by agreement with the FTA, transfer investigations relating to persons registered on Swiss territory as taxable persons to the FTA.

Art. 63 Transfer of the tax payment

~~¹ Taxable importers registered with the FTA as taxable persons that report using the effective method may, instead of paying the tax payable on the import of goods to the FOCBS, declare it in their periodic tax return to the FTA (transfer procedure), provided they regularly import and export goods and significant input tax surpluses result.~~

¹ The following taxable persons may declare the tax payable on the import of goods in their periodic tax return to the FTA instead of paying it to the FOCBS (transfer procedure):

- a. taxable importers registered with the FTA that report using the effective method, provided they regularly import and export goods and this regularly results in significant input tax surpluses;
- b. suppliers in accordance with Article 20a who are registered as taxable persons, provided that no administrative measure in accordance with Article 79a has been ordered against them.

² If the goods imported under the transfer procedure are further processed or finished on Swiss territory after the import, the FTA may authorise taxable persons to supply the processed or finished goods to other taxable persons without calculating the tax.

³ The Federal Council stipulates the details of the transfer procedure.

Art. 64 Tax remission

¹ A remission may be granted for all or part of the import tax, if:

- a. goods held in the custody of the FOCBS or made subject to a transit procedure (Art. 49 CustA³⁵), a customs warehousing procedure (Art. 50–57 CustA), a temporary admission procedure (Art. 58 CustA) or a procedure of inward processing (Art. 59 CustA) are destroyed in whole or in part by chance, act of God or with official approval;
- b. goods released for free circulation by official decree are destroyed in whole or in part or are again exported from Swiss territory;
- c. a subsequent claim in terms of Article 85 CustA would, in view of special circumstances, constitute an unreasonable burden on the taxable person under Article 51;
- d. the person responsible for the customs declaration (e.g. the forwarding agent) cannot recover the tax from the importer because of the latter's insolvency, and the importer was at the time of the acceptance of the customs declaration

registered as a taxable person on Swiss territory; insolvency of the importer must be assumed if repayment of the debt due to the person responsible for the customs declaration appears to be seriously at risk.

² The Directorate General of Customs decides on the tax remission on written application supported by the necessary evidence.

³ The period for submission of an application is:

- a. on assessment with unconditional import tax debt: one year after the issue of the import document with which the import tax was assessed;
- b. on assessment with conditional import tax debt: one year after conclusion of the customs procedure chosen.

² In the case of group taxation (Art. 13), the VAT group must appoint a representative to fulfil their procedural obligations who has his domicile or place of business in Switzerland.

⁷ Professional secrecy in accordance with the Banking Act, the Financial Institutions Act and the Financial Market Infrastructure Act must be preserved.

Art. 79 Assessment according to best judgement

¹ If no records or only incomplete records are available or if the results reported obviously do not reflect the true circumstances, the FTA shall make an assessment according to its best judgement of the tax claim.

² The tax claim is established with an assessment notice.

Art. 79a Administrative measures

¹ The FTA may order administrative measures against a taxable person who makes supplies on Swiss territory in accordance with Article 7 paragraph 3 letter b if that person:

- a. fails to register as a taxable person; or
- b. fails to comply or only partially complies with his or her reporting or payment obligations.

² The FTA shall hear the taxable person before deciding on the administrative measures. The supply recipients shall not be heard.

³ The FTA may order a ban on the import of goods that are exempt from import tax under Article 53 paragraph 1 letter a because of the negligible amount of tax. If the taxable person continues to fail to comply with his or her obligations despite the import ban, the FTA may order the destruction of the goods without compensation.

⁴ The measures shall be enforced by the FOCBS.

⁵ The FTA shall publish the names of taxable persons against whom measures in accordance with paragraph 3 have been ordered in a legally binding ruling.

Art. 80 Simplifications

If the exact establishment of individual facts important to the assessment of the tax would cause excessive inconvenience to the taxable person, the FTA shall grant facilities and allow the tax to be determined approximately, provided that as a result there is no significant loss of or increase in the tax, no material distortion of the competitive

situation and no excessive complication of the tax return for other taxable persons and the tax audit.

Chapter 5 Ruling and Appeal Procedures

Art. 81 Principles

¹ The provisions of the APA⁵² apply. Article 2 paragraph 1 APA does not apply to the VAT procedure.

² The authorities shall establish the legally relevant circumstances *ex officio*.

³ The principle of the free consideration of evidence applies. It is not permissible to make proof dependent on the production of specific evidence.

Art. 82 FTA rulings

¹ The FTA shall issue *ex officio* or on application of the taxable person all rulings necessary for the imposition of the tax, in particular if:

- a. the existence or scale of the tax liability is disputed;
- b. the registration or de-registration in the Register of Taxable Persons is disputed;
- c. the existence or amount of the tax claim, of joint liability or of the entitlement to a refund of taxes is disputed;
- d. the taxable person or persons jointly liable fail to pay the tax;
- e. other obligations arising under this Act or from ordinances based on it are not recognised or not fulfilled;
- f. in a specific case and as a precautionary measure it is ordered or appears necessary to establish the tax liability, the tax claim, the principles for the assessment of the tax, the applicable tax rate or joint liability.

² Written notice of rulings shall be given to the taxable person. Notice must include instructions on the right of appeal and an appropriate statement of the grounds for the ruling.

Art. 83 Objection

¹ Rulings of the FTA may be contested by filing an objection within 30 days of notification.

² The objection must be filed with the FTA in writing. It must contain the petition, the grounds for the objection citing the evidence and the signature of the appellant or of his representative. The representative must identify himself by written power of attorney. The evidence must be described in the letter of objection and enclosed with it.

⁵² SR 172.021

³ If the objection does not satisfy these requirements or if the petition or its grounds lack the necessary clarity, the FTA shall grant the objecting party a short period to revise the same. It shall combine this additional period with the warning that if the period expires unused, a decision will be made based on the files or, if the petition, grounds, signature or power of attorney is not provided, that the objection will not be considered.

⁴ If the objection is raised against a properly justified ruling of the FTA, on application or with the consent of the objecting party it must be forwarded as an appeal to the Federal Administrative Court.

⁵ The objection procedure must be continued despite withdrawal of the objection if there are indications that the contested ruling does not comply with the applicable provisions of the law.

Art. 84 Costs and compensation

¹ In general, no costs are charged in ruling and objection procedures. No legal costs are awarded.

² Regardless of the outcome of the proceedings, procedural costs may be imposed on the person or authority that culpably caused them.

Art. 85 Review, explanation and correction

The review, explanation and correction of assessment notices, rulings and objection decisions of the FTA are governed by Articles 66–69 APA⁵³.

Chapter 6 Collection

Art. 86 Payment of the tax

¹ The taxable person must settle the tax claim that arose in the reporting period within 60 days of the end of that period.

² If the taxable person makes no payment or a payment that is obviously insufficient, the FTA, after issuing a reminder, shall seek to enforce its claim for the tax amount provisionally payable for the reporting period in question. If no return has been filed for the taxable person or the return is obviously inadequate, the FTA shall first make an assessment according to its best judgement of the tax amount provisionally payable.

³ By filing his opposition, the taxable person instigates the procedure to have his opposition set aside. The FTA is responsible for setting aside the opposition in the ruling and appeal procedure.

⁵³ SR 172.021

⁴ The ruling on the opposition may be contested by filing an objection with the FTA within 10 days of it being issued. The objection decision is final, subject to paragraph 5.

⁵ If the tax amount provisionally payable that is the subject of the enforcement proceedings is the result of an assessment made by the FTA according to its best judgement, an appeal may be filed in the Federal Administrative Court against the objection decision. The appeal has no suspensive effect, unless the court so orders on justified application. The Federal Administrative Court makes the final decision.

⁶ Article 85a of the Federal Act of 11 April 1889⁵⁴ on Debt Collection and Bankruptcy (DCBA) does not apply.

⁷ The collection of a tax amount under paragraph 2 does not affect the final tax claim under Articles 72, 78 and 82 from being established. If the tax claim cannot be established due to a failure of the taxable person to act, in particular because he fails to correct errors under Article 72 or to request a ruling under Article 82, on the prescription of the right to establish the tax, the tax amounts established by the FTA under paragraph 2 become the tax claim.

⁸ Instead of a payment of the tax amount, the taxable person may provide security in accordance with to Article 93 paragraph 7.

⁹ Immediately after receipt of the payment or the security, the FTA shall withdraw its debt enforcement claim.

¹⁰ [Paragraphs 1-9 apply regardless of which reporting period has been chosen.](#)

Art. 86a [Provisional tax collection in the case of annual reporting](#)

¹ [In the case of annual reporting \(Art. 35a\), the tax shall be collected on a provisional basis by paying in instalments that are determined and invoiced by the FTA.](#)

² [The tax claim in the last tax period is decisive in determining the instalments. If it is not yet known, it is estimated by the FTA. In the case of new taxable persons, the tax claim expected by the end of the first tax period is decisive.](#)

³ [If the effective reporting method \(Art. 36\) or the flat tax rate method \(Art. 37 para. 5\) is used, one instalment shall amount one quarter of the tax claim, and in the case of reporting using the net tax rate method \(Art. 37 paras. 1-4\), one instalment shall amount to half of the tax claim in accordance with paragraph 2.](#)

⁴ [No negligible amounts will be charged.](#)

⁵ [If the taxable person considers the instalments to be too high or too low, he or she may apply to the FTA for an adjustment.](#)

⁶ [The instalments shall be paid:](#)

- a. [when applying the effective reporting method and the flat tax rate method: within 150, 240 and 330 days of the beginning of the tax period;](#)

b. in the case of reporting using the net tax rate method: within 240 days of the beginning of the tax period.

⁷ The instalments paid shall be credited against the tax claim according to the submitted annual return.

Art. 87 Interest on late payment

¹ In the event of late payment, interest is payable without reminder.

^{1bis} In the case of provisional tax collection under the annual reporting method, interest is payable on the amount due without a reminder if the taxable person pays the instalments after the deadline or does not pay them in full.

² Interest on late payment is not payable on an additional charge if it is the result of an error which, if it had been correctly processed, would not have led to loss of tax for the Confederation.

Art. 88 Refunds to the taxable person

¹ If the tax return ~~discloses or the instalments paid against the tax claim result in a surplus in favour of the taxable person, it is refunded~~ this shall be reimbursed to the taxable person.

² The foregoing paragraph does not apply in the event of:

- a. the set-off of this surplus against import tax liabilities, even if they are not yet due;
- b. the use of the surplus as security for tax under Article 94 paragraph 1;
- c. the use of the surplus for set-off among federal agencies.

³ The taxable person may reclaim taxes paid but not due if the tax claim is not yet legally binding.

⁴ If the surplus under paragraph 1 or the refund under paragraph 3 is paid out later than 60 days after receipt of the tax return or of the written claim to the entitlement by the FTA, interest shall be paid on the amount due for the period from the 61st day until payment or refund.

Art. 89 Debt collection

¹ If the claim for tax, interest, costs and fines is not satisfied, the FTA shall instigate debt collection proceedings and take whatever civil and enforcement measures that serve the purpose.

² If the tax claim is not yet legally binding and if it is disputed, the FTA shall issue a ruling. Until a legally binding ruling is issued, the final ranking of creditors is suspended.

³ By filing opposition to the enforcement proceedings, the taxable person instigates the procedure for to have his opposition set aside. The FTA is responsible for setting aside the opposition.

4 ...

⁵ The FTA must register the tax claim in the public inventories or on public notices to creditors.

⁶ The taxes incurred in the context of enforcement proceedings represent exploitation costs.

⁷ The FTA may in justified cases waive the collection of the tax if the enforcement proceedings are not expected to be successful.

Art. 90 Payment facilities

¹ If payment of the tax, interest and costs within the prescribed period causes the taxable person significant hardship, the FTA and the taxable person may agree on an extension of the payment period or on instalment payments.

² Payment facilities may be made subject to the provision of appropriate security.

³ Payment facilities lapse if the requirements lapse or if the conditions to which they are tied are not fulfilled.

⁴ The submission of an application for an agreement on payment facilities does not lead to the suspension of enforcement proceedings.

Art. 91 Prescription of the right to collect tax

¹ The right to enforce the tax claim, interest and costs prescribes five years from the time when the corresponding claim becomes legally binding.

² The prescriptive period is suspended as long as the taxable person cannot be proceeded against in Switzerland.

³ The prescriptive period is interrupted by every action requesting payment and every moratorium by the FTA and by every assertion of the claim by the taxable person.

⁴ Interruption and suspension are effective towards all persons liable for payment.

⁵ Prescription applies in any event ten years after the end of the year in which the claim became legally binding.

⁶ If a certificate of shortfall is issued in respect of a tax claim, the prescriptive period for collection is governed by the provisions of the DCBA⁵⁵.

Art. 92 Tax remission

¹ The FTA may abate bindingly assessed taxes in whole or in part if the taxable person:

- a. has for an excusable reason not invoiced and collected the tax, a retroactive transfer is not possible or reasonable and payment of the tax would result in serious hardship;

- b. owes the tax simply as a result of not observing formal regulations or of processing errors and it is obvious or the taxable person proves that there is no loss of tax for the Confederation; or
 - c. for an excusable reason could not fulfil his assessment obligations, but can prove or show credibly in retrospect that the assessment according to its best judgement undertaken by the FTA is too high; in this case tax abatement is possible only up to the amount over-assessed.
- ² The FTA may also consent to a tax abatement or waive security for its claim in composition proceedings.
- ³ The request for abatement must be justified in writing and be submitted to the FTA together with the necessary evidence. There is no right of objection to the ruling of the FTA. An appeal may be made to the Federal Administrative Court.
- ⁴ The submission of a request for a tax abatement does not lead to the suspension of enforcement proceedings for legally assessed taxes.
- ⁵ The tax abatement procedure is free of cost. However, costs may be imposed in full or in part on the person submitting the request if he has submitted an obviously unjustified request.
- ⁶ ...

Chapter 7 Security for the Tax

Art. 93 Security

¹ The FTA may require security for taxes, interest and costs, even if they are not bindingly assessed or due, if:

- a. their payment on time appears to be at risk;
- b. the taxable person makes preparations to give up his domicile, registered office or permanent establishment in Switzerland or to be deleted from the Swiss Commercial Register;
- c. the taxable person is in arrears with his payment;
- d. the taxable person takes over all or part of a business over which bankruptcy proceedings have been commenced;
- e. the taxable person submits returns that are obviously too low.

^{1bis} The FTA may require a member of the managing body of a legal person to provide security for taxes, interest and costs owed or likely to be owed by that legal person if:

- a. the member in question belonged to the managing body of at least two other legal persons in respect of which bankruptcy proceedings have been opened within a short period of time; and
- b. there are indications that the member concerned has acted in a criminal manner in connection with these bankruptcies.

² If the taxable person waives exemption from tax liability (Art. 11) or opts for the taxation of supplies exempt without credit (Art. 22), the FTA may demand from the person security pursuant to paragraph 7.

³ The ruling requiring security must cite the legal reason for the security, the amount to be secured and the office that accepts the security; it qualifies as a freezing order in terms of Article 274 DCBA⁵⁶. There is no right of objection against the ruling requiring security.

⁴ An appeal may be filed against the ruling before the Federal Administrative Court.

⁵ Appeals against rulings requiring security do not have suspensive effect.

⁶ The service of a ruling concerning the tax claim qualifies as the raising of an action under Article 279 DCBA. The period for instituting debt collection procedures begins to run when the ruling concerning the tax claim becomes legally binding.

⁷ Security must be provided by cash deposit, solvent guarantees, bank guarantees, mortgage certificates, life insurance policies with surrender value, listed Swiss franc bonds issued by Swiss borrowers or cash bonds issued by Swiss banks.

Art. 93a Security for tourist exports

If the purchaser of a good uses an electronic procedure to make a tourist export, the person concerned may be requested to provide security in the amount of the corresponding tax at the time of purchase.

² The security shall be refunded if proof of export is furnished within the prescribed period.

Art. 94 Other collateral measures

- a. be set off against debts from prior periods;
- b. be credited for set-off against anticipated amounts payable for subsequent periods if the taxable person is in arrears with the payment of tax or for other reasons it appears probable that the tax claim is at risk; the amount credited carries interest from the 61st day after receipt by the FTA of the tax return until the date of the set-off at the rate that applies to refund interest; or
- c. be set off against security required by the FTA.

² In the case of taxable persons without a domicile, registered office or permanent establishment in Switzerland, the FTA may also require security for anticipated debts under Article 93 paragraph 7.

³ If payments are repeatedly in arrears, the FTA may require the taxable person to make monthly or half-monthly advance payments.

⁵⁶ SR 281.1

- a. by not declaring in a tax period all receipts, declaring receipts from supplies exempt from the tax that are too high, not declaring all supplies subject to acquisition tax or by declaring expenses entitling to an input tax deduction that are too high;
- b. by obtaining an incorrect refund; or
- c. by obtaining an unjustified tax abatement;

shall be liable to a fine not exceeding 400,000 francs.

² The fine shall not exceed 800,000 francs if the tax evaded in the cases mentioned in paragraph 1 is transferred in a form that entitles the taxable person to make an input tax deduction.

³ Any person who reduces the tax due to the state by declaring the tax factors relevant for establishment of the tax truthfully, but qualifying them incorrectly for tax purposes, in that he wilfully fails to properly apply clear legal provisions, instructions from the authorities or published practice rules and does not inform the authorities thereof in writing in advance shall be liable to a fine of up to 200,000 francs. If the offence is committed through negligence, the fine is up to 20,000 francs.

⁴ Any person who reduces the tax claim to the detriment of the state:

- a. by wilfully or negligently failing to declare or incorrectly declaring or concealing goods on import;
- b. by wilfully failing to provide information or providing false or incomplete information in response to an enquiry during an official audit or administrative procedure that has as its object the establishment of the tax claim or tax abatement;

shall be liable to a fine not exceeding 800,000 francs.

⁵ An attempt to commit tax evasion is also an offence.

⁶ If the tax advantage is obtained on the basis of an incorrect return, the offence of tax evasion is not subject to a penalty until the period for correction of errors in the return has expired (Art. 72 para. 1) and the error has not been corrected.

Art. 97 Determination of the penalty and aggravated tax evasion

¹ The fine is determined by applying Article 106 paragraph 3 of the Swiss Criminal Code (SCC)⁵⁷; Article 34 SCC may be applied by analogy. If the tax advantage obtained by the act is greater than the threatened penalty and the offence was committed wilfully, the fine may be increased to a maximum of two times the tax advantage.

Art. 100 Violations in business operations

If a fine not exceeding 100,000 francs would be applicable and if the tracing of the offenders under Article 6 ACLA⁵⁸ would require investigations the cost of which would be disproportionate to the penalty otherwise forfeited, the authority may dispense with pursuing the offenders and instead order the business (Art. 7 ACLA) to pay the fine.

Art. 101 Concurrent offences

¹ Articles 7, 9, 11 and 12 paragraphs 4 and 13 ACLA⁵⁹ do not apply.

² The imposition of a penalty under Article 98 letter a of this Act does not preclude the imposition of a penalty under Articles 96 and 97.

³ The imposition of a penalty under Article 14 ACLA precludes the imposition of an additional penalty for the same criminal act under Articles 96 and 97 of this Act.

⁴ If an act meets the criterion of evasion of import tax or of receipt of untaxed goods as well as offence to be pursued by the FOCBS against other federal tax decrees, the penalty for the most serious violation shall be imposed; it may be increased appropriately.

⁴ A correction of the return under Article 72 paragraph 2 qualifies as self-reporting.

Art. 103 Prosecution

¹ With the exception of Articles 63 paragraphs 1 and 2, 69 paragraph 2, 73 paragraph 1 last sentence and 77 paragraph 4, the ACLA⁶¹ governs prosecution.

⁵⁸ SR 313.0

⁵⁹ SR 313.0

⁶⁰ SR 313.0

⁶¹ SR 313.0

² Prosecution is the responsibility of the FTA for domestic tax and acquisition tax, and of the FOCBS for import tax.

³ In closely related criminal cases in which both the FTA and the FOCBS have jurisdiction, the FTA may by agreement with the FOCBS decide to join the prosecutions under one of the two authorities.

⁴ Prosecution may be dispensed with if the level of culpability and the consequences of the crime are negligible (Art. 52 SCC⁶²). In these cases a non-intervention or no-proceedings ruling is issued.

⁵ If the competent authority must also investigate or judge other offences to which the ACLA applies, paragraph 1 applies to all offences.
